## NOTICE

There is surely going to be a shortage of Buick Automobiles this season, owing to scarcity of labor and all materials, together with slow transportation, and in view of these conditions, if you are considering purchasing one of these cars you should give your order at once, if you would be sure of a satisfactory delivery.

I have been buying and storing this past winter all the Buick Cars which I could possibly obtain and can now offer for immediate delivery a few cars of both Roadster and Touring models.

When these cars are sold, I will be unable to promise definite delivery.

Better give me your order and take delivery while you are sure of obtaining it.

See this line before the sizes are broken.

Miss Hazel Partridge of Franklin street, a member of the faculty at Spaulding high school, left the city yesterday for her home in Worcester, Mass., where she is passing the week end.

In anticipation of the two or three public appearances in the near future pipers and drummers of Barre met at Clan Gordon hall last evening for a loud and lengthy rehearsal. Much interest has been manifested in the revival of a bagpipe section among the musicians in Barre and it is quite probable that pipers and drummers alike will participate in the flag raising exercises next Saturday afternoon. On the following day the musicians will accompany Clan Gordon to the First Presbyterian church for its annual memorial service.

Most of the autoists who race their cars past a street car which has stopped to discharge or take on passengers are not aware that the 1917 general assembly, before its adjournment, took particular pains to provide for punishing such reckless disregard of others' rights, but the police are keeping a lookout for violations of this character and prosecutions are going to follow if the practice is not abated. The law says that "the driver or operator of every vehicle shall bring the same to a full stop not less than five feet from the rear of any street car headed in the same direction, which has stopped for the purpose of taking on or discharging passengers, and remain standing until such car has taken on or discharged its passengers, provided, however, that in towns or cities and villages where the streets are of sufficient width outside of street car tracks to permit the safe passage of vehicles. Under such circumstances this regulation may be modified by local ordinance or regulation." Thus far the city council has not seen fit to abrogate any part of the statute and it will be enforced, as it reads in the foregoing, by the police and other authorities.

### TALK OF THE TOWN

The price of a touring car of conventional type with enough money left over to retire on was tied up in a load of hogs which a Williamstown farmer brought to Barre yesterday and shipped over the M. & W. R. railroad. George Martin of Williamstown does not devote his entire time to breeding swine, but he can hang up a record when the occasion arises and it is believed that the mark attained by him yesterday has set the pace for other farmers in this section. There were 10 hogs in the lot which the farmer sold to B. F. Davis, the Cobble hill cattle buyer, and at the scales it was found that the porkers measured more than 3,000 pounds in the aggregate, or an average of more than 300 pounds. The price quoted on live pork was 18 cents yesterday.
